

EnergyMisers

Nothing Saves Energy Like "OFF"

PlugMiser™

PM190 (shown mounted on table leg)

PM150 (wall mount)

Keeping equipment powered off when not needed can prolong the lifespan of the equipment and save hundreds of dollars in energy costs each year.

One PlugMiser can reduce greenhouse gas emissions by 1200lbs. of CO² and 2050 grams of NO_x each year. (Based upon occupancy and the Energy Information Administration's national average of greenhouse gas emissions and electricity generation)

Limited only by your imagination, PlugMiser saves energy on all types of plug-loads; including arcade games, computer monitors, task lights, radios, copy machines, personal printers, space heaters and more.

The PM190 is designed to attach to a table leg and among other applications is widely used in grocery stores to turn off the "Hot-Wrap" machine in the deli when nobody is using it.

Easy to install; user selectable power-down time-outs; 1230 Watt capacity; fast return on investment; increase machine lifespan; environmental benefits. Install some today.

Technical and Electrical Specifications:

- Input Voltage: 115 Volts
- Input Frequency: 50/60 Hz
- Maximum Load: 1230 Watts (Steady-State)
- Power Consumption: <1 Watt (Standby)

Environmental Specifications:

- Operating Temperature: 0°C to 50°C
- Storage Temperature: -20°C to 60°C
- Relative Humidity: 95% Max (Non-Condensing)

Compatibility:

All types of plug loads including arcade games, computer monitors, task lights, radios, copy machines, personal printers, space heaters, etc. (do not exceed maximum power rating)

Inactivity Timeouts:

- Occupancy Timeout(s): User Selectable
- 3 seconds, 15 minutes, 25 minutes
- 1 hours, 2 hours, 3 hours

Dimensions: 4.5"W x 1.75"H x 3.25"D

Weight: 2.2 lbs. (Includes power cable)

Regulatory Approvals: Safety UL/C-UL Listed Information Technology Equipment (ITE) 9T79
